EPIDEMIOLOGICAL PERSPECTIVES IN PUBLIC HEALTH
VOLUME 1 NO 1 APRIL 2025

FOKUS DAN RUANG LINGKUP JURNAL

Epidemiological Perspectives in Public Health is a scientific journal dedicated to publishing high-quality research, reviews, and discussions on epidemiology and its impact on public health. This journal serves as a forum for researchers, public health professionals, policy makers, and academics to explore epidemiological trends, methodologies, and their implications for disease prevention and health promotion.

Articles published in Epidemiological Perspectives in Public Health include original scientific research results (top priority), new scientific review articles (non-priority), or comments or criticisms of existing writings in Epidemiological Perspectives in Public Health accepts manuscripts or articles in the field of public health professional sciences from various academics and researchers both nationally and internationally.

Articles published in Epidemiological Perspectives in Public Health are articles that have gone through a review process by Mitra Bebestari (peer-reviewers). Epidemiological Perspectives in Public Health only accepts articles that originate from original research results (top priority), and new scientific review articles (non-priority). The decision to accept or reject a scientific article in this journal is the right of the Editorial Board based on the recommendations of the Best Review Partners.

EPIDEMIOLOGICAL PERSPECTIVES IN PUBLIC HEALTH
VOLUME 1 NO 1 APRIL 2025

FOREWORD

Epidemiological Perspectives in Public Health is a scientific journal dedicated to publishing high-quality research, reviews, and discussions on epidemiology and its impact on public health. This journal serves as a forum for researchers, public health professionals, policy makers, and academics to explore epidemiological trends, methodologies, and their implications for disease prevention and health promotion.

Reviewers provide assessments for originality, clarity of presentation, contributions to the field/science. This journal publishes research articles, review articles/literature reviews, case reports and concept/policy articles, in all areas of public health professional science. Articles that will be published are original works and have never been published. Articles that are submitted will be reviewed by a team of reviewers from both internal and external.

The Editorial Board will strive to continue to improve the quality of the journal so that it can become one of the important references in the development of science. Appreciation and gratitude to Mitra bestari together with members of the Editorial Board and all parties involved in the publication of this journal.

Regards,

Chief Editor
